TURNKEY PALLETIZING *SOLUTION*
A permanent fix for your staffing woes

> **The ROI was a slam dunk.** *Smoothest equipment installation I have seen in 28 years.*

AX Series

The AX Series uses a 7th axis as a linear transfer system to extend the robot's vertical reach. The AX Series excels by providing the fastest cycle times and highest reach of any comparable palletizing system—all in a compact footprint.

PE Series

The PE Series, ideal for settings with fewer pallet height variations, makes the most of limited spaces by mounting cobots on a pedestal, which maintains high performance in compact areas.
